

#DIGITALIZINGTRANSPORT

www.villasanpuertas.com

Who are we?

We are **Villasan**, a transport agency with more than **20 years** of experience. Our mission is to satisfy the needs of our customers by offering **the highest quality** in the contracted service.

Our Solution

GOODS

We transport **all types** of **goods** all over Spain and Europe.

VEHICLES

We have **all types** of **vehicles**: tautliners, reefers, jumbos, megas, vans with one or two drivers.

SERVICE

We have **30 traffic planners** at your disposal who can attend to you in **7 different languages**.

Villasan has a **comprehensive** solution designed to optimise your logistics processes and simplify the management of your shipments.

What we do?

Specialists in Import-Export EUROPE-EUROPE and mainland Spain. Full load flows

Tecnology Innovation

- **In-house systems** department specialising in the development of customised IT solutions.
- **Vehicle tracking** in real time.
- **Extranet for Clients:** Monitoring of loads and access to documentation in digital format.
- **Incorporation of GPS** and Scanner in vehicles.
- European quality, environmental and safety certifications.
- **Electronic invoicing.**

How does **33CONNECT** work?

Enter the cargo need and the desired price in your panel.

The technology of **33 CONNECT** will provide you with the ideal transportation between our wide and verified network of carriers.

Hire your transportation with a click

Forget about cumbersome calls, dealings with operators, carriers, etc. Time is money!

Tracking with GPS of your shipment with the 33 CONNECT application.

The carrier will activate the GPS in 33 CONNECT and will be able to know at all times where the truck with your shipment is.

Easy management of documentation, digitized instantly.

You will have all the historical contracting in your profile, with delivery notes upload by the carrier at the time of delivery and the history of invoices for all contracted transportation.

Statistical service at your disposal, continuous improvement day by day.

With the help of your personal manager, you will be able to analyze, by periods, the contracted loads, the cost, the temporality, etc.

At 33 CONNECT, we are a great team at your service 24/7.

You will have a personal manager at your service 24 hours a day. With whom you can contact directly via email, phone, and WhatsApp without having to go through the switchboard.

Go digital !

- Through our villasan website (www.villasanpuertas.com) you can register for free and enter all your transport needs.
- We offer an **innovative tool** that allows you to maximise the efficiency of your operations and improve the transport experience of your goods.
- Features such as the digitalisation of all documentation at the moment, **GPS** or statistical services and above all the great team that accompanies users 24/7, make this tool totally necessary for the logistics management of the future.
